

## **Web Content Management Prior Learning Assessment**

Complete an instruction manual to create a Wordpress site. This documentation should be a one-stop, completely in your own words that could be turned over to someone with relatively no prior experience with Wordpress.

Be sure your manual includes the following sections

1. Choosing a Wordpress site host
2. Installing Wordpress
3. Selecting and Installing a Theme
4. Adding Users
5. Evaluating Plug-Ins
6. Choosing Widgets
7. Incorporating Email Sign-Ups
8. Integrating Social Media
9. Securing and Backing up Your Site
10. Implementing E-Commerce
